### Prayer Needs

Health of Elilo and her  
family.

Workers as they com-  
plete the orphanage.

God's direction in  
choosing the orphans  
who will be coming to  
the project.

Monthly support.

Elilo as she struggles  
with the heat this sum-  
mer. She has been  
having a lot of head-  
aches.

## ORPHANAGE UPDATE

The orphanage is in the final stages of completion. As you can see from the enclosed pictures the second floor of the girl's dorm is just about complete. Supplies for the kitchen and dorms are being purchased. It is so exciting to see the end in sight. Elilo is very frustrated that the workers do not show up when they are expected. I told her this is sometimes the case in America also. We are supporting one child now who is orphaned and going to school in another village but will come to the orphanage when school is out in December. In India the children attend school from January to December. As soon as the girl's dorm is complete and the rooms stocked Elilo

will begin deciding which children will be coming to the orphanage. Please lift her up in prayer as she makes her decisions.

I want to thank you for your faithful support and prayers. Without you and the Lord none of this would be possible. I know you will be blessed as you see the results of the completed project and meet the children that will be coming soon.

God Bless,

Lynn Skonnord
